

todo.js - es2015-modules

JS view.js JS bootstrap.js → JS todo.js x JS store.js

1

7

```
1 import View from './view.js'
2 import Controller from './controller.js'
3 import Model from './model.js'
4 import Store from './store.js'
5 import Template from './template.js'
6 import {remove} from './helpers.js'
7
8 export {updateTodo, getTodo, subscribe}
9
10 let todo
11 const subscribers = []
12
13 /**
14  * Sets up a brand new Todo list.
15  *
16  * @param {string} name The name of your new to do list.
17  */
18 function Todo(name) {
19   this.storage = new Store(name)
20   this.model = new Model(this.storage)
21   this.template = new Template()
```

All of this syntax is now natively supported
