SCOPE HOISTING

```javascript
(function (global, factory) {
    typeof exports === 'object' && typeof module !== 'undefined' ?
factory() :
    typeof define === 'function' && define.amd ? define(factory) :
    (factory());
}(this, (function () { 'use strict';

var b = 42;

console.log( b );

})));
```

SCOPE HOISTING

```javascript
(function (global, factory) {
    typeof exports === 'object' && typeof module !== 'undefined' ?
factory() :
    typeof define === 'function' && define.amd ? define(factory) :
    (factory());
}(this, (function () { 'use strict';

var b = 42;

console.log( b );

})));
```

Every generation's "basic building blocks" was the previous generation's "over-complicated tools"
